SPEC'S Cheese of the Week

Meadowkaas

Meadowkaas is made only in the spring with the milk of grass fed Dutch Freisan-Holstein cows. The cheese represents the first grazing of the new spring grasses and is only available for 3 months out of the year. This pale yellow cheese is sweet and fresh in flavor with a hint of salt and extremely creamy texture making it a perfect cheese to enjoy with fresh fruits. It is aged only 4 weeks so the beauty of its luscious flavor can be enjoyed.
